ATTORNEY  
DR. LIYUN ZHANG  
RESEARCH SCIENTIST

The Committee on Children studies issues and makes legislative and policy recommendations designed to improve the well-being of children in South Carolina. Annually, the Committee on Children conducts public hearings and collects data to support its legislative and policy work. This publication reports these data and a number of indicators to enhance understanding of the well-being of children in the categories of safety, welfare, health, juvenile justice, and education. Each year the Data Reference Book evolves to inform child-serving professionals in their efforts to keep children safe, healthy, educated, responsible, and supported.

The COVID-19 pandemic's effect on children continues to be studied. This report is the Committee's most recent effort to collect comprehensive data and includes available data of selected well-being indicators from 2019 through 2021. The historical data and trends include the Delta and Omicron strains' impact on these data points. These data also show, to some extent, different rates of recovery as agencies, providers, employers, and schools adapted to new challenges and ebbing infection rates.

South Carolina children face challenges and barriers to becoming successful citizens of our state, and the COVID-19 pandemic has made it more difficult for most. We encourage you to consider the data in the larger context of the global health pandemic and its effects on multiple facets of life. This report serves only to compile and share the data; readers should exercise caution when considering the data's implications and contemplating policy recommendations for future study and action.

Our thanks to all those who contributed to compiling this report. May it serve our children well.

## Data Overview

South Carolina was ranked 41<sup>st</sup> in the nation on overall child well-being by the Annie E. Casey Foundation in its 2021 *KIDS COUNT Data Book*.<sup>1</sup> More than 1.1 million children under age 18 live in South Carolina, which is 22% of the total population.<sup>2</sup> The most recent available data shows that in South Carolina:

- **670** children died in 2021.
- **61,814** child non-fatal injuries occurred, requiring a hospital or emergency room visit, incurring total hospital charges of **\$249,810,572** in 2020.
- **14,809** children/youth were victims of maltreatment in 2021.
- **6,569** children/youth were served in foster care in 2021.
- **2,185** child care facilities regulated by the South Carolina Department of Social Services' child care licensing were open in 2021.
- **31,787** children received mental health services provided by the South Carolina Department of Mental Health in 2021.
- **2,475** children received treatment services provided by the South Carolina Department of Alcohol and Other Drug Abuse Services in 2021.
- **722,864** or **64%** children in the state were enrolled in Medicaid in 2021.
- **9,712** children received services provided by the South Carolina Department of Disabilities and Special Needs in 2021.
- **11,343** juvenile delinquency cases were referred to the South Carolina Department of Juvenile Justice in 2021.
- **761,290** students were enrolled in South Carolina public school districts, and **33,492** students were enrolled in South Carolina private schools in the 2020-2021 school year.
- **11,736** students were identified as homeless in South Carolina public school districts in the 2019-2020 school year.
- **173,026** COVID-19 cases were reported among children under age 18, which was **17%** of total reported cases in South Carolina from March 2020 to December 2021.
- **678** COVID-19 hospitalizations and **23** COVID-19 deaths were reported among children under age 18 in South Carolina from March 2020 to December 2021.

**For more data and related sources, please see individual indicators of the Data Reference Book.**

### DATA SOURCES

1. S.C. Revenue and Fiscal Affairs Office. S.C. pediatric emergency department visits (ages 0-17), including emergency department visits that resulted in an inpatient admission, non-fatal injuries for South Carolina residents. Unpublished reports generated in July 2021 and February 2022. Data are by calendar years for children under age 18 unless otherwise specified.
2. S.C. non-fatal injury rate was calculated with the total number of child non-fatal injuries to children ages 0-17 in 2020, divided by the S.C. total child population for 2020 and multiplied by 100,000. Source of child population: S.C. Department of Health and Environmental Control, Population Data, year of 2020, [https://apps.dhec.sc.gov/Health/SCAN\\_BDP/tables/populationtable.aspx](https://apps.dhec.sc.gov/Health/SCAN_BDP/tables/populationtable.aspx) (last visited, April 3, 2022).
3. National non-fatal injury rate: Centers for Disease Control and Prevention, National Center for Injury Prevention and Control, WISQARS online, non-fatal injury reports, <https://wisqars.cdc.gov/nonfatal-reports> (last visited, March 7, 2022).

# Child Welfare Indicators

## Children/Youth Maltreatment

### S.C. CHILDREN/YOUTH MALTREATMENT REPORTS

**67,164** children/youth maltreatment reports were received by the South Carolina Department of Social Services (DSS) in 2021, **13,986** or **26% increase** from 2020.

- **36,616** or **55%** accepted for investigation (safety issues alleged) in 2021, **5,020** or **16% increase** from 2020.
- **8,873** or **24%** founded investigations in 2021, **390** or **5% increase** from 2020.
- **14,809** victims of children/youth maltreatment in 2021, **836** or **6% increase** from 2020.

**6,427** or **43%** were victims ages 0 to 6 in 2021, **792** or **11% decrease** from 2020.

**5,392** or **36%** were victims ages 7 to 12 in 2021, **1,967** or **57% increase** from 2020.

**2,990** or **20%** were victims ages 13 to 17 in 2021, **339** or **10% decrease** from 2020.

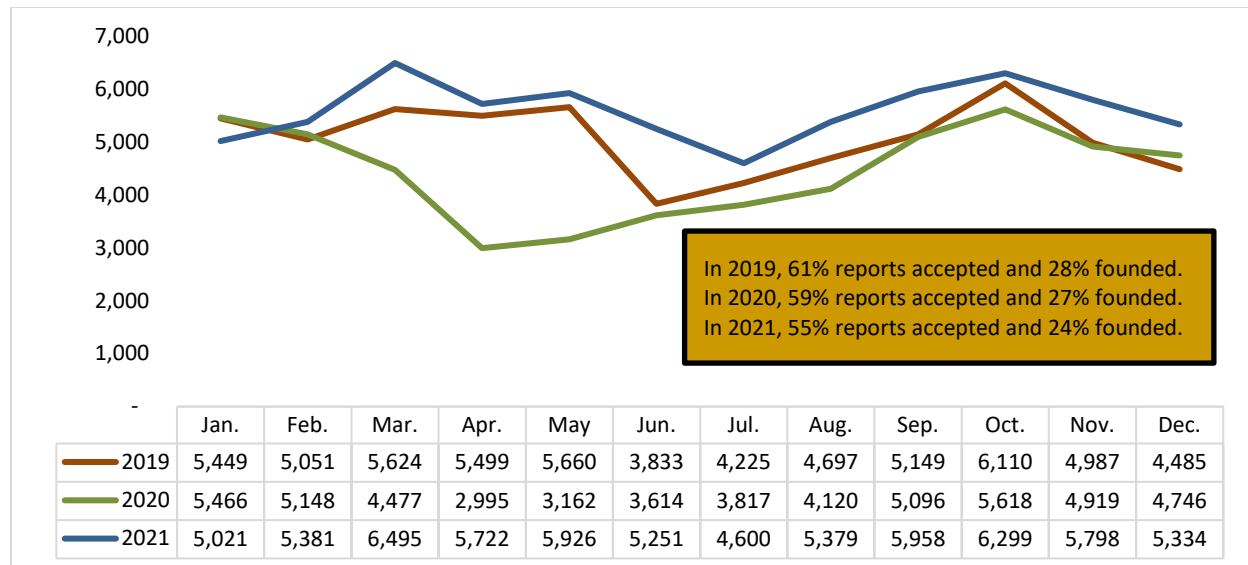

*Note.* Data submitted to the Committee on Children in February 2022. The number of founded investigations in 2021 may change as of February 2022. Investigators have up to 45 days and with approved extensions have up to 60 days to complete an investigation. Therefore, data in December 2021 are incomplete and may be incomplete in November 2021. Due to rounding, percentages may not always appear to add up to 100%.

## Children/Youth in Foster Care

### S.C. CHILDREN/YOUTH IN FOSTER CARE

**2,993** children/youth entered foster care in 2021, **331** or **12% increase** from 2020.

**2,674** children/youth exited foster care in 2021, **137** or **5% decrease** from 2020.

**6,569** children/youth served in foster care in 2021, **124** or **2% decrease** from 2020.

- **2,603** or **40%** were children/youth ages 0 to 6 in 2021, **163** or **6% decrease** from 2020.
- **1,843** or **28%** were children/youth ages 7 to 12 in 2021, **113** or **6% decrease** from 2020.
- **2,123** or **32%** were children/youth ages 13 to 17 in 2021, **152** or **8% increase** from 2020.

*Note.* Children are under age 18 as of 12/31/2021, or the close date of their service, whichever is earlier.

### S.C. CHILDREN/YOUTH IN FOSTER CARE: COMPARING 2019, 2020, AND 2021 DATA

	2019	2020	2021	Compared 2020 to 2019	Compared 2021 to 2019	Compared 2021 to 2020
Children/youth entered foster care	4,111	2,662	2,993	-1,449 (-35%)	-1,118 (-27%)	+331 (+12%)
Children/youth exited foster care	3,861	2,811	2,674	-1,050 (-27%)	-1,187 (-31%)	-137 (-5%)
Children/youth served in foster care	8,249	6,693	6,569	-1,556 (-19%)	-1,680 (-20%)	-124 (-2%)
○ Ages 0 to 6	3,491	2,766	2,603	-725 (-21%)	-888 (-25%)	-163 (-6%)
○ Ages 7 to 12	2,406	1,956	1,843	-450 (-19%)	-563 (-23%)	-113 (-6%)
○ Ages 13 to 17	2,352	1,971	2,123	-381 (-16%)	-229 (-10%)	+152 (+8%)

### S.C. CHILDREN/YOUTH IN FOSTER CARE BY MONTH

# Child Welfare Indicators

## S.C. CHILDREN/YOUTH IN FOSTER CARE BY SEX, ETHNICITY AND RACE

## S.C. CHILDREN/YOUTH IN FOSTER CARE: COMPARED TO NATIONAL DATA

S.C. children/youth in foster care on  
September 30, 2020:  
**1.5 per 1,000 children**

National rate:  
**5.6 per 1,000 children**

### DATA SOURCES

1. S.C. Department of Social Services, unpublished reports generated in November 2021 and February 2022. Data are by calendar years for children under age 18 unless otherwise specified.
2. County data from calendar years of 2019, 2020, and 2021 were presented in two separate tables due to the difference in data labels received in November 2021 (calendar years 2019 and 2020 data) and February 2022 (calendar year 2021 data).
3. Compared to national data: Child Trends, State-level Data for Understanding Child Welfare in the United States. Author: Sarah Catherine Williams. Publication Date: February 28, 2022. Number of children of all ages currently in foster care on September 30, 2020. Foster care rate is calculated using general child population data from the U. S. Census Bureau from 2020. The data used in this publication, [Dataset #255, AFCARS Foster Care FY2020], were originally obtained from the National Data Archive on Child Abuse and Neglect and have been used in accordance with its Terms of Use Agreement license by Child Trends. <https://www.childtrends.org/publications/state-level-data-for-understanding-child-welfare-in-the-united-states> (last visited, April 3, 2022).

## DATA SOURCE

Children’s Law Center, University of South Carolina School of Law. Court Liaison Program, unpublished reports generated in August 2021 and February 2022.

# Child Welfare Indicators

## Child Care Facilities Regulated by the South Carolina Department of Social Services

### S.C. CHILD CARE FACILITIES BY OPERATIONAL STATUS AND CAPACITY

**2,185** open and active child care facilities were regulated by the South Carolina Department of Social Services' (DSS) child care licensing in 2021, including **213** newly opened facilities. The capacity, or the maximum number of children the total open and active facilities were licensed to serve was **183,563**.

New legislation passed in 2021 no longer required publicly funded 4K (Child Early Reading Development and Education Program or CERDEP) to be licensed by DSS. This change accounts for **217** fewer child care programs regulated by the department.

### S.C. CHILD CARE FACILITIES BY OPERATIONAL STATUS AND CAPACITY: COMPARING 2019 AND 2020 DATA

Operational Status	2019	2020	Compared 2020 to 2019
Total open and active	2,419	2,408	-11 (-0.5%)
○ Newly opened	157	156	-1 (-0.6%)
Closed	258	171	-87 (-34%)

*Note.* 2021 data were not included in this table for comparison due to the impact of the new legislation on the data.

### S.C. CHILD CARE FACILITIES BY CAPACITY: COMPARING 2019 AND 2020 DATA

Capacity (Number of Children Licensed to Served)	2019	2020	Compared 2020 to 2019
Total open and active	194,533	199,172	+4,639 (+2%)
○ Newly opened	10,030	12,010	+1,980 (+20%)
Closed	10,694	7,621	-3,073 (-29%)

*Note.* 2021 data were not included in this table for comparison due to the impact of the new legislation on the data.

*Note.* In 2021, the South Carolina General Assembly exempted CERDEP 4K programs operated by public schools from licensure by DSS. As a result of this change, **217** facilities have been removed from the 2021 total because they are no longer regulated by the department. Thus, the actual number of child care facilities open (serving children) in 2021 is **2,402**.

## Substance Use Disorder and Treatment Services

### SUBSTANCE USE DISORDER AND TREATMENT SERVICES AMONG S.C. CHILDREN AND PARENTS

**53,823** treatment services for a primary or secondary substance use disorder were provided to children by the South Carolina Department of Alcohol and Other Drug Abuse Services (DAODAS) in 2021, **10,886** or **25% increase** from 2020.

**2,475** children (unduplicated count) received the provided treatment services in 2021, **267** or **12% increase** from 2020.

**239,699** treatment services for a primary or secondary substance use disorder were provided to parents (who had children under age 18) by DAODAS in 2021, **10,418** or **4% decrease** from 2020.

**20,091** parents (unduplicated count) received the provided treatment services in 2021, **59** or **0.3% increase** from 2020.

### SUBSTANCE USE DISORDER AND TREATMENT SERVICES AMONG S.C. CHILDREN: COMPARING 2019, 2020, AND 2021 DATA

## DATA SOURCE

1. S.C. Department of Alcohol and Other Drug Abuse Services, unpublished report generated in February 2022. Data are by calendar years for children under age 18 unless otherwise specified.
2. In the Committee's special edition data reference book released earlier in 2022-South Carolina Children during the COVID-19 Pandemic, DAODAS reported 54,121 treatment services were provided to children for calendar year 2020. This number was significantly larger than the number reported in this data book for the same year (i.e., 42,937) due to the inclusion of case management activities (case consultation activities) in the previous dataset. DAODAS usually excludes case consultation activities that are not face-to-face from the total services count.

# Health Indicators

## Children Receiving Services Provided by the South Carolina Department of Disabilities and Special Needs

### S.C. CHILDREN RECEIVING DDSN SERVICES

**9,712** children (unduplicated count) received services provided by the South Carolina Department of Disabilities and Special Needs (DDSN) in 2021, **2,159** or **18% decrease** from 2020.

*Note.* The shift of fiscal responsibility of all new BabyNet clients ages 0 to 2 to the South Carolina Department of Health and Human Services (DHHS) beginning July 1, 2019 accounts for the decrease in children served. DDSN continues to serve BabyNet legacy clients until they age out but adds no new clients to its database, which suggests DDSN’s services have decreased when they have not. DDSN’s Early Intervention program for children ages 3 to 5 has experienced continued significant growth for the past five years, nearly doubling in that time. DDSN’s Early Intervention program is a family-focused, in-home service for children from ages 0 to 6. The BabyNet program is South Carolina’s interagency early intervention system for infants and toddlers under age 3 with developmental delays, or who have conditions associated with developmental delays. The BabyNet program matches the special needs of infants and toddlers who have developmental delays with the professional resources available within the community.

### DDSN EARLY INTERVENTION PROGRAM CASELOAD FOR S.C. CHILDREN AGES 3-5 BY YEAR (2017-2022)

*Note.* Caseload counts are as of the last day of February of each calendar year 2017-2022.

Year	Caseload for Children Ages 3-5	Caseload Increase Year by Year	Caseload Increase Since 2017
2017	1,970	N/A	N/A
2018	2,190	11%	11%
2019	2,851	30%	45%
2020	3,414	20%	73%
2021	3,878	14%	97%
2022	3,921	1%	99%

## S.C. CHILDREN RECEIVING DDSN SERVICES BY MONTH (DUPLICATED COUNT)

Note. The monthly data represent children under age 18 who are receiving one or more services by DDSN. It should be noted that Medicaid offers a robust package of services to children with disabilities in the state and children ages 3 to 18 have the right to be served by their local school district under funding provided by the Individuals with Disabilities Education Act (IDEA) Part C.

## S.C. CHILDREN RECEIVING DDSN SERVICES BY AGE GROUP AND SEX (UNDUPLICATED COUNT)

Note. Age as of beginning of calendar year.

## S.C. CHILDREN RECEIVING DDSN SERVICES BY PRIMARY DISABILITY TYPE (UNDUPLICATED COUNT)

Primary Disability	2019	2020	2021
Intellectual disability and related disabilities (ID/RD)	14,636	11,513	9,379
Autism	349	329	310
Head and spinal cord injury (HASCI)	20	29	23
<b>Total</b>	<b>15,005</b>	<b>11,871</b>	<b>9,712</b>

Note. Due to legacy decisions at DDSN, individuals have been historically categorized by disability type based on the type of case manager they had, what was considered a major disability, and other factors. These decisions were developed for fiscal and not policy reasons. It is recognized that some but not all individuals served may have more than one type of disability. These data points may be artificially inflated or deflated due to historical record keeping methods.

## S.C. CHILDREN RECEIVING DDSN SERVICES BY SERVICE PROGRAM (UNDUPLICATED COUNT)

Service Program	2019	2020	2021
Waiver and state Medicaid plan	1,878	1,912	1,911
100% state funded	11	19	18
BabyNet and Early Intervention	13,116	9,940	7,783
<b>Total</b>	<b>15,005</b>	<b>11,871</b>	<b>9,712</b>

*Note.* In South Carolina, Medicaid funds services for children ages 3 to 6 who are DDSN and Medicaid eligible. DDSN covers services with state funds for children ages 3 to 6 who are DDSN eligible but not Medicaid eligible. BabyNet is funded and regulated through the Individuals with Disabilities Education Act (IDEA), Part C, and managed through DHHS. Early Intervention is a family-focused, in-home service for children ages 0 to 6. Family Training and Service Coordination is provided in accordance with an Individualized Family Service Plan for children ages 0 to 3 or a Family Service Plan for children ages 3 to 6.

<sup>1</sup>Group care intensive services (GCIS) provides lodging, food, and the attentive and responsible care of children. GCIS are highly structured residential services with intensive staff supervision and programs for children who are experiencing relational or behavioral problems and are not able to function successfully in a less restrictive community environment. For DDSN clients, they are 100% state funded. The program must be operational 24 hours per day, seven days per week, 365 days per year. The goal of GCIS is to assist children and address their needs to the degree they may be safely stepped down to a less restrictive environment. Intensive management refers to the level of supervision and intensity of programming required to manage children who present severe behavior management problems. Programming is tailored to the needs of the children served.

<sup>2</sup>Individual and family support (IFS) is funding available through DDSN to provide financial assistance to individuals and families eligible for DDSN in order to provide relief with hands-on caregiving or to improve an unsafe, risky, or dangerous situation. In an effort to position IFS dollars in close proximity to individuals or families in need, DDSN allocates funding to providers willing to administer the funds. Specific data of children or families with children accessing IFS is not currently available.

# Health Indicators

<sup>3</sup>Psychiatric residential treatment facilities (PRTF) (comprehensive residential services) are licensed in-patient psychiatric treatment facilities available for those under age 21 who meet admissions criteria and are prior approved by the beneficiary’s Medicaid Managed Care Organization (MCO) or DHHS for those who have fee for service Medicaid. Some PRTFs accept private payment and some private insurance plans. DDSN clients are 100% state funded. In order to access a PRTF, the individual must have a psychiatric diagnosis. A developmental diagnosis within itself is not sufficient. PRTFs are licensed and monitored by the South Carolina Department of Health and Environmental Control. PRTFs are not considered a long-term placement and are designed to provide stabilization and facilitate discharge back to the community as soon as clinically feasible.

Lived with anyone who had a problem with alcohol or drugs	7.8%	8.9%	8.5%	8.6%
Treated or judged unfairly because of his/her race or ethnic group	4.5%	5.3%	4.3%	5.0%

# Health Indicators

## DATA SOURCE

1. Data Resource Center for Child & Adolescent Health, 2018-2019 (two years combined) and 2019-2020 (two years combined) National Survey of Children's Health, South Carolina vs. Nationwide, <http://childhealthdata.org/browse/survey#> (last visited, April 7, 2022).
2. Indicators included: Indicator 1.1: Health status; Indicator 1.3: Breastfed ever, age 0-5 years; Indicator 1.4a: Weight status (based on Body Mass Index [BMI]-for-age) in 3 categories, age 10-17 years; Indicator 2.10: Mental, emotional, developmental or behavioral problems, age 3-17 years; Indicator 3.1: Current health insurance status; Indicator 1.2a: Oral health problems, age 1-17 years; Indicator 4.2: Dentist visit, age 1-17 years; Indicator 4.6: Vision test-Indicator specifies vision tests with "pictures," "shapes" or "letters;" Indicator 4.4: Received mental health care, age 3-17 years; Indicator 4.19: Problems paying medical bills; Indicator 6.13: Children experienced one or more adverse childhood experiences (ACEs) from a list of 9 ACEs-the survey defines "witness(ing) domestic violence" as "saw or heard parents or adults slap, hit, kick, punch one another in the home."
3. The National Survey of Children's Health provides rich data on multiple, intersecting aspects of children's lives-including physical and mental health, access to quality health care, and the child's family, neighborhood, school, and social context. The National Survey of Children's Health is funded and directed by the Health Resources and Services Administration (HRSA) Maternal and Child Health Bureau. A revised version of the survey was conducted as a mail and web-based survey by the Census Bureau in 2016, 2017, 2018, 2019 and 2020.

## Juvenile Justice

### S.C. JUVENILE DELINQUENCY CASES

**11,343** juvenile delinquency cases were referred to the South Carolina Department of Juvenile Justice (DJJ) in 2021, **1,361** or **14% increase** from 2020.

**1,716** cases were referred with a status offense as most serious charge in 2021, **184** or **12% increase** from 2020.

**1,351** cases were referred with a violent/serious offense in 2021, **3** or **0.2% increase** from 2020.

**2,001** detentions in 2021, **23** or **1% increase** from 2020.

**1,926** youth (unduplicated count) were detained in 2021, **1** or **0.1% decrease** from 2020.

**469** youth were committed (including suspended and final commitments) in 2021, **153** or **25% decrease** from 2020.

### S.C. JUVENILE DELINQUENCY CASES: COMPARING 2019, 2020, AND 2021 DATA

	2019	2020	2021	Compared 2020 to 2019	Compared 2021 to 2019	Compared 2021 to 2020

Number of cases referred with a <b>status offense</b> as most serious charge	2,333	1,532	1,716	-801 (-34%)	-617 (-26%)	+184 (+12%)
Number of cases referred with a <b>violent/serious offense</b>	1,446	1,348	1,351	-98 (-7%)	-95 (-7%)	+3 (+0.2%)
Number of <b>detentions</b>	2,456	1,978	2,001	-478 (-19%)	-455 (-19%)	+23 (+1%)
Number of <b>youth detained</b> (unduplicated count)	2,372	1,927	1,926	-445 (-19%)	-446 (-19%)	-1 (-0.1%)
Number of <b>youth committed</b> (unduplicated count)	880	622	469	-258 (-29%)	-411 (-47%)	-153 (-25%)

# Juvenile Justice Indicators

## NATIONAL ESTIMATES (2019)

**722,600** delinquency cases were handled by U.S. courts with juvenile jurisdiction, a **3% decrease** from the previous year, with a rate of **22.7** delinquency cases for every 1,000 juveniles.

**2,000** delinquency cases on average were handled by juvenile courts per day.

**72%** of the delinquency cases involved males, and **28%** involved females.

**54%** of the delinquency cases involved youth younger than age 16.

**43%** of the delinquency cases involved white youth, **35%** black youth, **19%** Hispanic youth, **2%** American Indian youth, and **1%** Asian youth.

**33%** of the delinquency cases involved person-related offenses, **30%** property-related offenses, **13%** drug-related offenses, and **24%** public order-related offenses.

**186,600** or **26%** of delinquency cases involved detention.

**90,500** status offense cases were petitioned and formally disposed by U.S. courts with juvenile jurisdiction, an **7% decrease** from the previous year, with a rate of **2.8** status offense cases per 1,000 juveniles.

## Education

### S.C. PUBLIC SCHOOL HEADCOUNTS

**761,290** actively enrolled students in South Carolina public school districts in 2020-2021 school year (180-day headcount), **21,025** or **3% decrease** from 2019-2020 (180-day headcount):

- **22,434** or **3%** of students enrolled in child development programs (PK) in 2020-2021.
- **52,444** or **7%** of students enrolled in kindergarten (5-year-old) in 2020-2021.
- **166,634** or **22%** of students enrolled in Grades 1-3 in 2020-2021.
- **299,262** or **39 %** of students enrolled in Grades 4-8 in 2020-2021.
- **220,516** or **29%** of students enrolled in Grades 9-12 in 2020-2021.

**53,689** teachers in South Carolina public school districts in 2020-2021 school year, **201** or **0.4% increase** from 2019-2020.

# Education Indicators

## S.C. HOMELESS STUDENTS

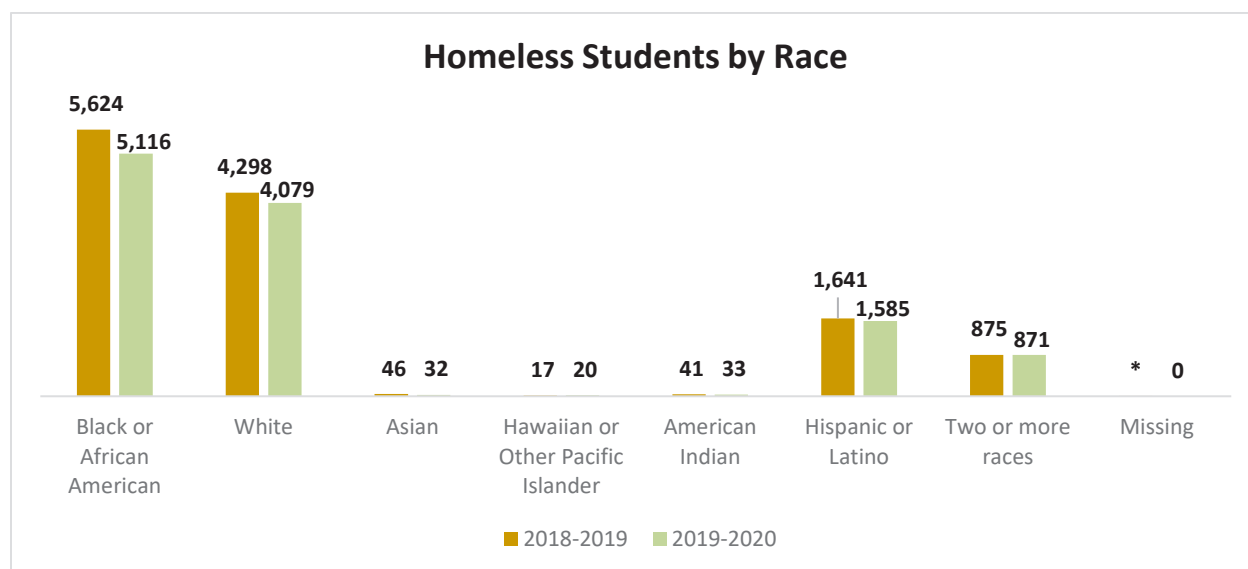

**11,736** students enrolled in a South Carolina public school district during the 2019-2020 school year were identified as homeless, **809** or **6% decrease** from 2018-2019.

*Note.* The state educational agency (SEA) level McKinney-Vento student data are the unduplicated number of identified homeless students enrolled in public schools at any time during the school year. All students are counted only once.

The Federal McKinney-Vento Homeless Assistance Act defines students who lack a fixed, regular, and adequate nighttime residence as homeless. This includes students who: share the housing of other persons due to loss of housing, economic hardship, or a similar reason (sometimes referred to as “doubled-up”); live in motels, hotels, trailer parks, or camping grounds due to lack of alternative adequate accommodations; live in emergency or transitional shelters; are abandoned in hospitals; have a primary nighttime residence that is a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings; live in cars, parks, public spaces, abandoned buildings, substandard housing (e.g., housing that lacks any one of the fundamental utilities, does not have a working kitchen or plumbing, is overcrowded, or infested), bus or train stations, or similar settings; migratory children who qualify as homeless because they are living in circumstances described above; and unaccompanied youth who qualify as homeless because they are living in circumstances described above. Students whose living situations meet this definition have educational rights and are eligible to receive services under the McKinney-Vento Act.

## S.C. SCHOOL REPORT CARD DATA (PUBLIC SCHOOL DISTRICTS)

	2018-2019	2019-2020	2020-2021
English learners (EL) students	61,507	64,386	63,885
Percent of students served by gifted and talented program	20.9%	20.2%	19.9%
Students ages 3 to 17 with disabilities in special education and related services	101,618	104,359	101,792
Percent of students retained	1.4%	1.4%	1.3%
Dropout rate	1.5%	2.2%	1.7%
Dropout recovery rate	5.7%	5.9%	6.1%
Four-year graduation rate	81.1%	82.2%	83.3%
Percent of students from prior year graduating class enrolled in a two- or four-year college or technical college pursuing an associate's degree, certificate, or diploma in Fall following graduation	69.5%	67.2%	64.3%

*Note.* Dropout rate measures annual rate of students in grades 7 through 12 who leave the school or district for any reason, other than death, prior to graduation without transferring to another school, district or institution. Dropout recovery rate reflects the proportion of students in grades 9 through 12 from each school and district who, having dropped out during a particular academic year, reenrolled in a public school or reenrolled in an Adult Education high school diploma granting program within the first 135 days of the next academic year.

## PREPARING FOR SUCCESS IN S.C.

	2018-2019	2019-2020	2020-2021
<b>Overall Kindergarten Readiness</b>	37.2%	39.2%	26.8%
By domains:			
○ Social foundation	49.2%	53.3%	N/A
○ Language and literacy	33.0%	33.6%	32.4%
○ Mathematics	29.3%	29.4%	28.3%
○ Physical well-being	52.1%	55.4%	N/A
<b>First and Second Grade Students on Track for Success in English Language Arts (ELA) and Mathematics</b>			
○ First grade students who are on track for success in ELA at the second grade	50.8%	33.0%	55.8%
○ First grade students who are on track for success in mathematics at the second grade	54.1%	38.7%	60.2%
○ Second grade students who are on track for success in ELA at the third grade	48.0%	33.0%	51.9%
○ Second grade students who are on track for success in mathematics at the third grade	48.0%	36.6%	54.2%
<b>High School Civics Test</b>			
Percent of students enrolled in a U.S. Government course who score at or above the designated passing score on the civics test	N/A	60.3%	75.8%

*Note.* The cut score for "Overall Kindergarten Readiness" was used across all domains in order to provide comparative information. It does not necessarily reflect domain level readiness.

On March 26, 2021, the U.S. Department of Education waived federal accountability requirements and granted flexibility in administering assessments due to the COVID-19 pandemic. The results displayed for 2020-2021 should not be compared to those of other years due to the testing limitations as a result of the pandemic. In addition, these results may be incomplete and may not be representative of the make-up of the state, district, or school population.

## S.C. CHILDREN SERVED BY THE S.C. FIRST STEPS

	FY 2018-2019	FY 2019-2020	FY 2020-2021
Number of children directly served by First Steps 4K and Local Partnerships	28,427	30,579	37,163
○ Number of children directly served by First Steps 4K	3,191	3,048	2,588
○ Number of children directly served by First Steps Local Partnership high-intensity programs	4,725	1,535	3,472
Estimated number of children indirectly served by First Steps Local Partnerships	41,000+	40,000+	60,000+

# Education Indicators

## SOUTH CAROLINA PALMETTO ASSESSMENT OF STATE STANDARDS (SCPASS) TEST SCORES

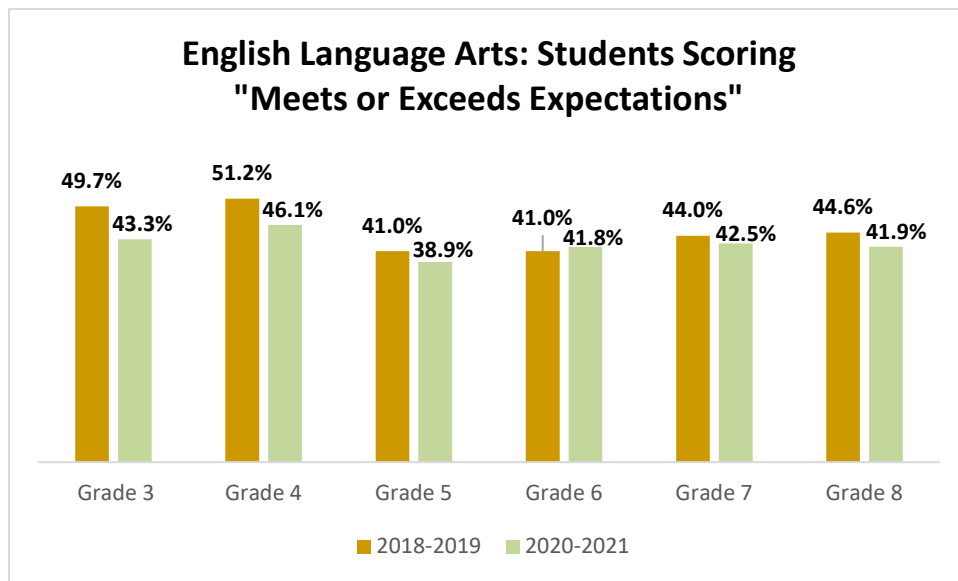

*Note.* The SCPASS program is one of the tests used in calculating absolute ratings, growth ratings, and federal accountability status. The program currently only assesses science in grades 4 and 6; no other grades or subjects are assessed under SCPASS at this time. No test data are available for the 2019-2020 school year due to cancellation of testing in spring 2020.

On March 26, 2021, the U.S. Department of Education waived federal accountability requirements and granted flexibility in administering assessments due to the COVID-19 pandemic. The results displayed for 2020-2021 should not be compared to those of other years due to the testing limitations as a result of the pandemic. In addition, these results may be incomplete and may not be representative of the make-up of the state, district, or school population.

# The COVID-19 Pandemic

## Reported COVID-19 Cases among South Carolina Children

### S.C. REPORTED COVID-19 CASES AMONG CHILDREN (MARCH 2020-DECEMBER 2021)

**173,026** reported COVID-19 cases among children under age 18, **17.3%** of total reported cases in South Carolina from March 2020-December 2021.

- **35,610** reported COVID-19 cases among children March 2020-December 2020, **10.8%** of total reported cases in South Carolina during the time period.
- **137,416** reported COVID-19 cases among children January 2021-December 2021, **20.5%** of total reported cases in South Carolina during the time period.

**678** reported COVID-19 hospitalizations among children under age 18, **2.0%** of total reported hospitalizations in South Carolina from March 2020-December 2021.

- **221** reported COVID-19 hospitalizations among children March 2020-December 2020, **1.4%** of total reported hospitalizations in South Carolina during the time period.
- **457** reported COVID-19 hospitalizations among children January 2021-December 2021, **2.6%** of total reported hospitalizations in South Carolina during the time period.

**23** reported COVID-19 deaths among children under age 18, **0.2%** of total reported COVID-19 deaths in South Carolina from March 2020-December 2021.

**7,515** reported COVID-19 maternal morbidity cases in South Carolina from March 2020 to December 2021.

- **2,673** reported COVID-19 maternal morbidity cases in South Carolina March 2020-December 2020.
- **4,842** reported COVID-19 maternal morbidity cases in South Carolina January 2021-December 2021.

*Note.* 2021 data are provisional and subject to change.

### S.C. REPORTED COVID-19 CASES AMONG CHILDREN: COMPARING 2020 AND 2021 DATA

Children under Age 18	2020	2021	Compared 2021 to 2020
Reported COVID-19 cases	35,610	137,416	+101,806 (+286%)
Reported COVID-19 hospitalizations	221	457	+236 (+107%)
Reported COVID-19 deaths	*	20	N/A

0<\*<5; N/A: Data not applicable

### COMPARED TO NATIONAL DATA

S.C. reported COVID-19 cases per 100,000 children (cumulative child cases as of December 2021, Ages 0-17):  
**15,413 per 100,000 children**

National rate:  
**10,484 per 100,000 children**

## DATA SOURCES

1. South Carolina data: S.C. Department of Health and Environmental Control (DHEC), unpublished reports generated in August 2021 and February 2022.

Maternal COVID-19 morbidity is defined as a COVID-19 patient who was pregnant at the time that the case (confirmed or probable) was reported to DHEC. The maternal COVID-19 morbidity reported in this report included data from the enhanced surveillance of COVID-19 among pregnant women that DHEC put in place in Spring 2021 in collaboration with the CDC. Data from the enhanced surveillance include pregnancies that may not have been identified during the initial report or case interview.

Data about school association were collected from case investigations resulting from positive COVID-19 tests reported to DHEC. The tests may have been administered and/or reported by the schools or by healthcare providers, laboratories or other testing sites.
2. Compared to national data: S.C. reported rate of COVID-19 cases per 100,000 children was calculated with the total number of reported COVID-19 cases among children ages 0-17 as of December 2021 divided by the 2020 S.C. child population and multiplied by 100,000. Source of child population: DHEC, Population Data, year of 2020, [https://apps.dhec.sc.gov/Health/SCAN\\_BDP/tables/populationtable.aspx](https://apps.dhec.sc.gov/Health/SCAN_BDP/tables/populationtable.aspx) (last visited, February 28, 2022).

National rate: American Academy of Pediatrics and Children’s Hospital Association, Children and COVID-19: State Data Report. Summary of publicly reported data from 49 states, NYC, DC, PR, and GU. Version: 1/27/2022. The national rate cited in this report (i.e., 10,484 per 100,000 children) was based on the reported data from December 30, 2021 (see Appendix Table 2A of the State Data Report: Summary of Child Case Data from 4/16/20-1/27/22), <https://downloads.aap.org/AAP/PDF/AAP%20and%20CHA%20-%20Children%20and%20COVID-19%20State%20Data%20Report%201.27.22%20FINAL.pdf> (last visited, April 9, 2022).

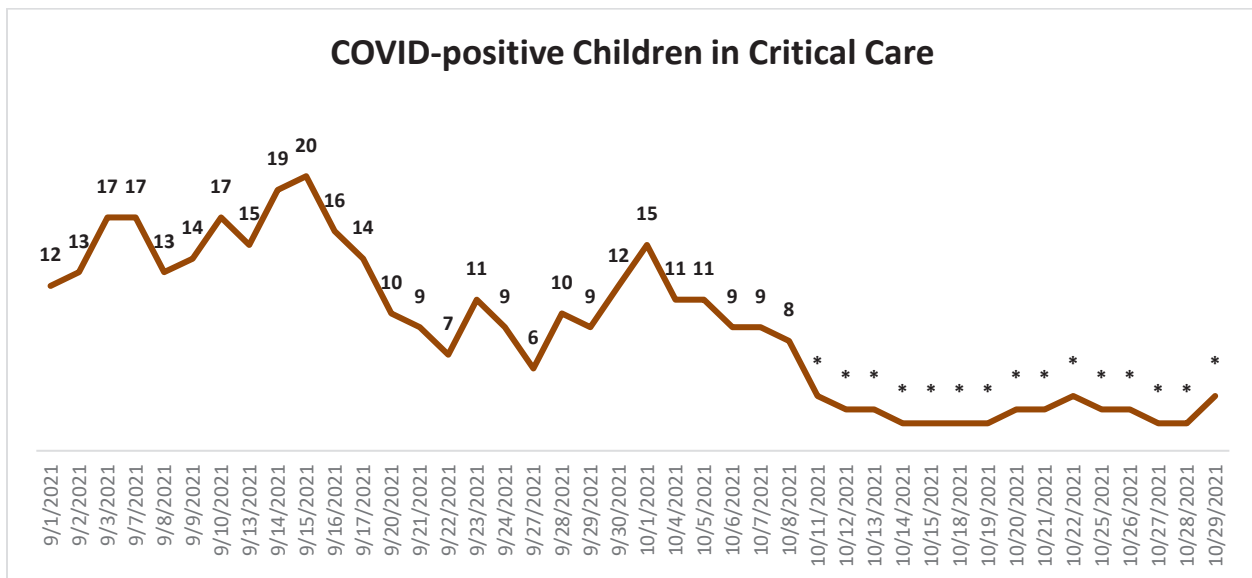

The numbers in this national report represent cumulative counts since states began reporting. The data are based on how public agencies collect, categorize and post information. All data reported by state/local health departments are preliminary and subject to change and reporting may change over time. Notably, in the summer of 2021, some states revised cases counts previously reported, began reporting less frequently, or dropped metrics previously reported. Readers should consider these factors. States may have additional information on their websites. Definition of “child”: Age ranges reported for children varied by state (0-14, 0-17, 0-18, 0-19, and 0-20 years).

# The COVID-19 Pandemic

## South Carolina Children’s Hospital Collaborative COVID-19 Update

The South Carolina Children’s Hospital Collaborative provided COVID-19 daily reports during the Delta variant surge in September 2021 through October 2021, and the Omicron variant surge in January 2022 through February 2022. The South Carolina Children’s Hospital Collaborative represents the four children’s hospitals in South Carolina: McLeod Children’s Hospital in Florence, MUSC Shawn Jenkins Children’s Hospital in Charleston, Prisma Health Children’s Hospital-Midlands in Columbia, and Prisma Health Children’s Hospital-Upstate in Greenville. All four children’s hospitals experienced an increase in the number of children requiring hospitalization from the COVID-19 during the surges. The data presented below were daily counts, not cumulative counts over time.

*Note.* Multisystem Inflammatory Syndrome in Children (MIS-C) is a rare but serious condition associated with COVID-19 in which different body parts become inflamed, including the heart, lungs, kidneys, brain, skin, eyes, or gastrointestinal organs. MIS can affect children (MIS-C) and adults (MIS-A) (Centers for Disease Control and Prevention, 2021).

## Household Pulse Survey

### - South Carolina and National Data Comparison

#### WHAT IS THE HOUSEHOLD PULSE SURVEY?

The U.S. Census Bureau, in collaboration with multiple federal agencies, is in a unique position to produce data on the social and economic effects of coronavirus on American households. The Household Pulse Survey is designed to deploy quickly and efficiently, collecting data to measure household experiences during the coronavirus pandemic. Data is disseminated in near real-time to inform federal and state response and recovery planning. Phase 1 of the survey ran from April 23, 2020 through July 21, 2020; Phase 2 from August 19, 2020 through October 26, 2020; and Phase 3 from October 28, 2020 through March 29, 2021. Phase 3.1 of the Household Pulse Survey began April 14, 2021 and ended on July 5, 2021. Data collection for Phase 3.2 of the Household Pulse survey ran from July 21, 2021 to October 11, 2021. Data collection for Phase 3.3 of the survey ran from December 1, 2021 through February 7, 2022. Although previous phases of the survey collected and disseminated data every two weeks, Phase 3.3 shifted to a two-weeks on, two-weeks off collection and dissemination approach.

#### DATA SOURCES

1. Data selected and presented in this report were based on the analyzed data published by the National KIDS COUNT on the Household Pulse Survey, <https://datacenter.kidscount.org/data#USA/1/0/char/0/271> (last visited, February 19, 2022).
2. Household Pulse Survey (COVID-19), U.S. Census Bureau, <https://www.census.gov/programs-surveys/household-pulse-survey/data.html> (last visited, February 19, 2022).

**EMPLOYMENT, HOUSEHOLD SPENDING, AND FOOD SECURITY**

	Households with children that lost employment income		Households with children where there was little or no confidence in ability to pay their next rent or mortgage payment on time		Households with children that had difficulty paying for usual household expenses in the past week		Households with children that sometimes or often did not have enough food to eat in the past week

Jun 09-Jul 05, 2021	93%	93%	92%	94%	85%	88%	88%	88%

Note. Pertaining to each indicator in the above table: For Phases 1, 2, and 3, respondents were asked about availability for students attending public, private, or home schools. Beginning in Phase 3.1, respondents were only asked about availability for students attending public or private schools. Due to the change in who was eligible to answer questions about internet availability for education purposes, estimates from April 23, 2020 through March 29, 2021 may not be comparable to those from April 12, 2021 or later.

Note. S indicates estimates suppressed when the effective sample size is less than 30 or the 90% confidence interval is greater than 30 percentage points or 1.3 times the estimate.

## Acknowledgments

The 2022 Data Reference Book of the Joint Citizens and Legislative Committee on Children is the result of countless hours of hard work, and the cooperation of many agencies and individuals. Much assistance was provided to the Committee with its data collection, analysis, research, policy review, and editing to ensure that issues affecting children in South Carolina are accurately and clearly presented.

The Committee expresses its appreciation to the many agency staff whose work contributed to this Data Reference Book. The members of the Committee are especially grateful for the contributions and efforts of the following agencies:

The South Carolina Department of Health and Environmental Control  
The South Carolina Revenue and Fiscal Affairs Office  
The South Carolina Department of Social Services  
The South Carolina Department of Mental Health  
The South Carolina Department of Alcohol and Other Drug Abuse Services  
The South Carolina Department of Health and Human Services  
The South Carolina Department of Disabilities and Special Needs  
The South Carolina Department of Juvenile Justice  
The South Carolina Department of Education  
The South Carolina First Steps  
The South Carolina Children’s Hospital Collaborative

The Joint Citizens and Legislative Committee on Children extends its appreciation to the staff at the Children’s Law Center, University of South Carolina School of Law, for compilation of the Data Reference Book. In particular, we thank Michelle Dhunjishah, Director; Carolyn Morris, Assistant Director; Liyun Zhang, Research Scientist; Samuel Miller-Poling, Administrative Assistant; Shealy Reibold, Senior Resource Attorney; Morgan Maxwell, Legislative Resource Attorney; and Cody Lidge, Court Improvement Program Director.

# Nurturing our state's future.
